

JASVANTH. S

Data Intelligence Analyst

+91 8098421779 • jasvanth1010@gmail.com • [Portfolio](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Data Intelligence Analyst with 4+ internship experiences turning complex datasets into actionable strategic insights. Proficient in building end-to-end analytics pipelines, designing interactive Power BI and Tableau dashboards, and applying machine learning to predictive analysis. Combines strong Python and SQL skills with business acumen to communicate data stories that drive decision-making at the executive level.

TECHNICAL SKILLS

Data Analysis: Pandas, NumPy, SQL (PostgreSQL, MySQL), Excel, Google Sheets

Visualization & BI: Power BI, Tableau, Matplotlib, Seaborn, Plotly

Machine Learning: Scikit-learn, Regression, Classification, Clustering, Feature Engineering

Programming: Python (Expert), SQL, DAX

Data Processing: Data Cleaning, ETL Pipelines, Statistical Analysis, A/B Testing

Tools: Jupyter Notebook, Power Query, Git, Kaggle, VS Code

PROFESSIONAL EXPERIENCE

Data Analyst Intern | [Besant Technologies](#) • Aug 2025 – Sep 2025 • Coimbatore (Remote)

- Analyzed multi-source business datasets using Python and SQL to surface actionable intelligence for stakeholders
- Designed and published interactive Power BI dashboards translating raw metrics into executive-ready reports
- Improved visualization clarity and reduced time-to-insight by standardizing reporting templates

Data Visualization Intern (Power BI) | [Gateway Software Solutions](#) • Apr 2025 – May 2025 • Remote

- Designed 4+ interactive Power BI dashboards for sales data analysis, improving report clarity by approximately 30%
- Collaborated directly with stakeholders to capture requirements and deliver iterative dashboard updates
- Automated recurring reports, saving several hours of manual preparation weekly

Data Analyst Intern | [Edunet Foundation](#) • Sep 2024 – Oct 2024 • Remote

- Analyzed datasets exceeding 10,000 records using Python (Pandas, NumPy) and SQL to extract business intelligence
- Delivered 5+ interactive Power BI dashboards; optimized data collection workflows, increasing accuracy by 15%
- Presented findings with structured narratives that supported data-driven strategy decisions

Artificial Intelligence Intern | [Grow Your Skills](#) • Jul 2025 – Oct 2025 • Remote

- Designed and optimized data analysis pipelines for automation use cases, integrating AI-driven anomaly detection
- Built LLM-powered data summarization tools to augment analyst reporting capabilities

ANALYTICS PROJECTS

Trading Prediction & Market Analytics [Python, Scikit-learn, Streamlit, yfinance, Pandas]

- Built an ML-powered stock and crypto movement forecasting system; designed intuitive visualizations mapping historical data patterns to predictive outputs for retail investors

Heart Disease Risk Analysis [Python, Scikit-learn, Pandas, Matplotlib, Streamlit]

- Performed exploratory data analysis on clinical datasets, applying classification models to predict cardiovascular risk with feature importance visualization for medical interpretability

SmartFire — GIS Risk Analytics [GIS Data, Python, Statistical Modelling, MIP Optimization]

- Conducted geospatial risk analysis integrating demographic, infrastructure, and traffic datasets to model fire risk across urban zones — presented at TNFS National Conference, VIT Chennai (Top 23 Finalists)

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2023 – 2027

Arjun College of Technology, Coimbatore **CGPA: 8.21**

CERTIFICATIONS

Master Class on Data Science using Python — Udemy (2025)

Master in Data Science to become a Data Scientist — Udemy (2025)

Power BI Master Class — OfficeMaster (2025)

Data Analyst Internship Completion — Besant Technologies (2025)

Green Skills and AI Foundation — Edunet Foundation – Skill4Future (2024)

Oracle Certified Foundations Associate — Oracle University (2025)

ACHIEVEMENTS

- Top 23 Finalist — TNFS National Technical Paper Presentation, VIT Chennai (2026)
- Speaker: 'Data Science in Industry 4.0' — ZARAK 2K25, HCAS Tech-Fest (2025)
- Research: 'Leveraging AI and Data Science for Small Business Growth' — Authored working paper
