PROFESSIONAL SUMMARY

Versatile AI & Data Science Engineer who thrives at the convergence of intelligent systems, full-stack development, and data analytics. I build production-grade applications — from Agentic RAG systems and LLM-powered APIs to interactive dashboards and scalable web platforms. My core mission: transform complex data and AI capabilities into intuitive, high-impact solutions that create measurable real-world value. Equally fluent in architecting multi-agent orchestration systems, shipping FARM-stack products, and delivering boardroom-ready analytical insights.

CORE COMPETENCIES

AI / GenAI / Agentic: LangChain, LangGraph, CrewAI, RAG Pipelines, LLMs (Llama 3, GPT, Gemma, Deepseek, Qwen), Prompt Engineering, Vector DBs

ML / Deep Learning: PyTorch, Scikit-learn, Regression, Classification, NLP, Predictive Modelling, Hugging Face

Full-Stack Development: React.js, Next.js, Tailwind CSS, FastAPI, Flask, Django, MongoDB, PostgreSQL

Data Analytics & BI: Pandas, NumPy, SQL, Power BI, Tableau, Matplotlib, Seaborn, DAX, ETL

DevOps & Deployment: Docker, Git, GitHub, Render, Vercel, GitHub Pages

Languages: Python (Expert), JavaScript, TypeScript, SQL

SIGNATURE PROJECTS

Smart Academic Assistance — Agentic RAG Bot [LangChain, CrewAI, Llama 3, Groq, FastAPI, Docker, Telegram]

- Architected a dual-brain Agentic RAG system combining strict document retrieval (Google Drive) with Llama 3 fallback for open-domain queries, deployed as a real-time Telegram bot
- Reduced document lookup time by 80%; used CrewAI for multi-agent task delegation across retrieval, summarization, and response generation

EasyML — No-Code Machine Learning Platform [Python, Flask, Scikit-learn, Pandas, JavaScript, Render]

- Built an end-to-end automated ML web app enabling non-technical users to train, evaluate, and deploy classification/regression models through a simple interface — no coding required
- Presented at Smart India Hackathon 2024 prelims; deployed live on Render

3D Print With Sruthi — Production E-Commerce Site [Next.js, Tailwind CSS, Cashfree Payments, Role-Based Auth]

- Delivered a full production e-commerce platform for a client with secure payment processing, role-based access, and a scalable product catalog — currently live and driving active sales

Heart Disease Prediction Model [Python, Scikit-learn, Pandas, Streamlit]

- Developed a clinical risk assessment system with cross-validated ML classifiers and SHAP-based feature importance — makes early cardiovascular risk predictions accessible via web interface

SmartFire AI Optimizer [GIS, Python, MIP Optimization, Agentic AI]

- Designed an AI-driven fire station location optimizer using multi-variable risk modelling and Mixed-Integer Programming — ranked Top 23 nationally at TNFS, VIT Chennai

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern | [Grow Your Skills](#) • Jul 2025 – Oct 2025 • Remote

- Built end-to-end AI solutions from data preprocessing through model training and FastAPI deployment
- Developed LLM applications with agentic architecture exposure; designed automation data pipelines

Data Analyst Intern | [Besant Technologies](#) • Aug 2025 – Sep 2025 • Coimbatore

- Extracted actionable business intelligence from multi-source datasets; designed Power BI dashboards for executive reporting

Data Visualization Intern | [Gateway Software Solutions](#) • Apr 2025 – May 2025 • Remote

- Designed 4+ Power BI dashboards for sales analytics, improving report clarity by ~30%

Data Analyst Intern | [Edunet Foundation](#) • Sep 2024 – Oct 2024 • Remote

- Analyzed 10,000+ record datasets; delivered 5+ dashboards; improved data accuracy by 15%

RESEARCH & PUBLICATIONS

- SmartFire AI Optimizer — AI-Based Fire Station Location Optimization (TNFS National Conference, VIT Chennai, 2026)
- Health Guardian AI — Agentic Wearable Health Orchestration System (ICSIEKAHE Conference, 2026)
- Cyber Jarvis — Agentic AI Framework for Autonomous Cyber Defense (Draft, 2026)
- Leveraging AI & Data Science for Small Business Growth (Working Paper, 2025)

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2023 – 2027

Arjun College of Technology, Coimbatore **CGPA: 8.21**

CERTIFICATIONS (SELECTED)

Gen AI Engineering Mastermind — Outskill (2026)

The Complete React.js Course — Udemy (2026)

AI Agents Intensive Course — Google / Kaggle (2025)

Master in Data Science — Udemy (2025)

Oracle Certified Foundations Associate — Oracle University (2025)

Power BI Master Class — OfficeMaster (2025)

Full-Stack Master Class — Noviteh (2025)

ACHIEVEMENTS & RECOGNITION

- Top 23 Finalist — TNFS National Technical Paper Presentation, VIT Chennai (Mar 2026)
- Smart India Hackathon 2024 — Presented 'EasyML: Democratizing AI' at internal prelims
- Speaker at ZARAK 2K25 HCAS Tech-Fest: 'Data Science in Industry 4.0'
- Attended Tamil Nadu Global Startup Summit 2025, CIT Alumni Meet 2026, Youth Talk 2025
- Freelance AI & Web Developer — delivered production solutions for 3 clients
